

With a proud heritage spanning over 100 years, HBM Holdings successfully acquires, operates, and supports companies within mission-critical industries.

About Us

HBM Holdings is a privately held global conglomerate focused on strategically acquiring and partnering with middle-market industrial companies with growth potential. We offer the long term focus of a strategic acquirer paired with the agility of a private company.

Investment Criteria

HBM identifies and acquires strong businesses within growing markets. We are building new platforms and pursuing acquisitions complementary to our existing portfolio of companies. We aim to build and grow for the long term.

hbmholdings.com

Size

For new acquisitions, we seek controlling positions in companies with EBITDA between \$20-50 million and EBITDA margins of >15% or a clear path to it, with a leading position in a market >\$500 million.

We have broader criteria for complementary acquisitions, and all current portfolio companies are acquisitive.

Target Segments

We seek solutions-oriented businesses generally in these industries:

- Mining & minerals
- Flow control
- Adhesives & specialty chemicals
- Aerospace & transport manufacturing

Serving these end markets:

- Lithium, copper, cobalt mining, and/or processing companies
- Electric, internal combustion mobility, & off-highway applications
- Critical medical, industrial, and oil & gas valves
- Environmental solutions & recycling

Operating Characteristics

We are directionally seeking companies with:

- Strong market position
- Sustainable growth potential
- Talented management teams
- Differentiated engineering content
