

With a proud heritage spanning over 100 years, the mission of HBM Holdings is to acquire, support and grow world-class manufacturing businesses serving critical industries.

About Us

HBM Holdings is a privately held global holding company focused on strategically acquiring and partnering with middle-market industrial businesses with significant growth potential. We offer the long-term focus of a strategic acquirer paired with the agility of a private company.

Investment Criteria

HBM identifies and acquires strong businesses within growing markets. We are building new platforms and pursuing acquisitions complementary to our existing portfolio of companies. We aim to invest and build for the long term.

Financial Profile

For platform acquisitions, we seek companies with EBITDA from \$25-50 million and margin above 20% (or a clear path to get there) with leading positions in growing markets >\$500 million in size. Our criteria are broader for complementary add-ons, and all current portfolio companies are acquisitive.

Target Segments

We seek solutions-oriented businesses in these representative industries:

- Mining & minerals
- Flow control & measurement
- Adhesives & specialty chemicals
- Precision machined components & assemblies
- Agricultural nutrition

Serving growing end-markets, such as:

- Industrial process and automation
- Energy infrastructure & power generation
- Electrification & mobility applications
- Critical medical & life sciences
- Aerospace & Defense

Operating Characteristics

- Strong market positions
- Sustainable growth potential
- Talented management teams
- Differentiated products and technologies
